I prodotti delle collezioni CENTURY presentano variazioni di colori e venature della superficie tali da rendere ogni lastra diversa dalle altre, creando effetti di stonalizzazione tipici dei materiali naturali. Ø pertanto indispensabile, all atto della posa, prelevare il materiale da pi confezioni e posare armonizzando i pezzi per valorizzarne la stonalizzazione, che da considerare caratteristica del prodotto.

Products from the CENTURY collections present colour variations and surface veining that make every slab unique, creating colour clashes typical of natural materials. This makes it indispensable to take pieces out of different packages when installing and to lay them in a harmonious composition that enhances their contrasting colours, a characteristic quality of the product.

Les produits des collections CENTURY r v lent des variations de couleurs et des veines en surface telles que chaque dalle semble tre diff rente des autres, cr ant ainsi des divergences de nuance typiques des mat riaux naturels. Lors de la pose, il est, par cons quent, indispensable de pr lever le mat riau de plusieurs caisses et de l taler en harmonisant les l ments pour souligner les variations de couleurs, qui doivent tre consid r es comme une caract ristique du produit.

Die Produkte der Kollektionen CENTURY zeichnen sich durch Variationen in der Farbgebung und derungen aus, so dass jede Platte einzigartig ist und die typischen Abt nungen des Natursteins zeigt. Es ist deshalb beim Verlegen unabdinglich das Material aus verschiedenen Packungen zu entnehmen und die einzelnen Fliesen der Abt nung nach harmonisch zu verlegen, um dieses typische Produktmerkmal voll hervorzuheben.

Los productos de las colecciones CENTURY presentan matices y vetas superficiales que hacen que cada baldosa sea distinta de las dem s, creando variaciones crom ticas t picas de los materiales naturales. Cabe, pues, efectuar la colocaci n sacando el material de varias cajas y disponer las piezas armoniz ndolas para hacer resaltar sus variaciones crom ticas, que deber n considerarse caracter sticas del producto.
